

# Generics, on the 'Mark' Program

Save money on your prescriptions when you use the Generics, on the 'Mark' program.

Trustmark's unique **Generics, on the 'Mark'** program helps you control out-of-pocket prescription drug costs. Simply talk with your provider about selecting highly respected and widely used generic drugs as appropriate substitutes for brand-name drugs. And, when you change from a brand-name drug to one of the **Generics, on the 'Mark'** drugs at a participating pharmacy, Trustmark will pay for your **first** prescription.

## Generics Are Equal to Brand-Names

Rigorous analysis by the U.S. Food and Drug Administration has shown that generic drugs are equal to their brand-name counterparts in strength, quality and performance. Plus, generic drugs provide an effective and less-expensive alternative for most people. **Generics, on the 'Mark'** is just another way Trustmark helps maintain the affordability of your prescription drug benefit.

## GENERICS, ON THE 'MARK' IS EASY TO USE:

- 1 Talk** to your provider or pharmacist about which generic drug(s) listed on the next page may be medically appropriate for you.
- 2 Fill** your prescription, when your provider considers it medically appropriate to prescribe one of these generic drugs, to take advantage of an effective and generally lower-cost alternative to brand-name drugs.
- 3 Present** your medical ID card, and we'll pay for your **first** prescription changing from a brand-name drug to one of the **Generics, on the 'Mark'** drugs at a participating pharmacy. Best of all, since your cost for generic drugs is generally lower than for brand-name drugs under your healthcare plan, you continue to save money on each generic drug you need.

Please take advantage of Trustmark's **Generics, on the 'Mark'** program, and possibly lower your prescription drug costs today. If you have any questions, call the eligibility/benefits information number on your medical ID card.
