Here is what three Trustmark employees have to say about the service.*

After being diagnosed with sleep apnea, my doctor told me I needed to get a CPAP machine. I wasn't sure where to go to get the equipment, so I called *CareChampion 24/7*. My *CareChampion* did the research for me, and sent me an itemized list of the providers in my area that carried the machine, costs, mail order options with shipping costs and links to online information. How awesome!

When I got the CPAP machine, my *CareChampion* also helped answer questions about billing and even followed up a few days later to see if I had any additional questions. I received tremendous service from *CareChampion 24/7*!

Joe, Idaho

The hospital was asking my family member for payment. We knew we'd have to work out a payment plan, but we wanted to better understand the Explanation of Benefits (EOBs) first to determine what was really owed.

I contacted *CareChampion 24/7* and explained the situation. After receiving the EOBs, the *CareChampion* advisor realized that the correct discounts hadn't been applied to the claims. No further payment was due! She worked with the insurance carrier and the hospital on our behalf and had everything resolved within a week.

Tami, Illinois

My 83-year old dad needed a caregiver to stay with him because he couldn't manage on his own. I wasn't sure what the options were in Indiana, where my dad lives, so I turned to *CareChampion 24/7* to help me find a safe and credible caregiver for him.

My *CareChampion* advisor was great; she really listened and was very respectful of my dad's needs. She called me back with several referral options, including an agency that was right in his town. My dad's caregiver is a great companion, and I have peace of mind knowing Dad is being taken care of. I would definitely call my *CareChampion 24/7* advisor again!
