

More Benefits – More Savings! with Lab Card[®] and Lab Card[®] Select

Lab Card and Lab Card Select are value-added programs that enhance your current health plan. These voluntary programs are designed to save members money on their outpatient laboratory testing and are some of the many ways Trustmark helps members manage their healthcare costs.

Depending on their health plan, members can receive outpatient laboratory testing at no cost* through Lab Card, or at significant savings compared with other labs with Lab Card Select, when testing is directed to a participating Quest Diagnostics laboratory.

Outpatient lab work includes:

- Blood testing (e.g., cholesterol, CBC)
- Urine testing (e.g., urinalysis)
- Cytology and pathology (e.g., pap smears, biopsies)
- Cultures (e.g., throat culture)

The programs do not apply to lab work ordered during inpatient hospitalization; lab work needed on an emergency (STAT) basis, and time-sensitive, specialized outpatient laboratory testing such as fertility testing, bone marrow studies and spinal fluid tests; nonlaboratory work such as mammography, x-ray, imaging and dental work; lab work performed by another lab; and testing that is not approved and/or covered by the health benefit plan.

By choosing to direct routine outpatient lab testing to a participating Quest Diagnostics laboratory and requesting to use the Lab Card or Lab Card Select program, members can save on their healthcare costs. These programs are voluntary. If members choose not to use their lab card program, regular benefits will apply.

For more information, call client services Monday through Friday, 7 a.m. to 8:30 p.m. CT and Saturday, 7:30 a.m. to 4:00 p.m. CT. or visit the program's website.
